

NEVADA'S INTEREST.

From a private letter received in Carson yesterday we make the following extracts:

The bill to provide for an Indian School at Carson passed the Senate Tuesday (the 14th) after some discussion occupying two days. Stewart thinks he can get it through the House. He interviewed all the members of the House Committee on Indian Affairs, and has got the assurance of the Chairman of the Committee that it will be favorably recommended to the House. You will see that the Secretary of the Interior and the Superintendent of Indian Affairs both strongly recommended the bill. This is a great deal in its favor.

On the 13th inst. Senator Stewart submitted a resolution, which passed, asking the Secretary of the Interior to inform the Senate as to the desirability of "authorizing the organization in his Department, known as the Geological Survey to segregate lands of the public domain capable of irrigation in the sections of the United States where irrigation is required, from other lands, and to lay out suitable places to be reserved as reservoirs and rights of way for ditches and canals for the purposes of irrigation." Before doing this he has conferred with the Secretary of the Interior on the subject, who said that he was heartily in favor of the idea, and therefore he will recommend such action by the Senate. The object of this move is to pave the way for the bill the Senator introduced some time ago providing for these surveys. He believes this is the first and only move to make now. If the bill passes he will see that Nevada is the first State to reap its benefits.

The bill to increase the mileage to jurors and witnesses in Nevada to the U. S. Courts from 5 to 15 cents per mile is in the hands of the Judiciary Committee. As this is the law in Colorado there will not be, I presume, any difficulty in passing it. It is absolutely necessary on account of the great distances some of the witnesses have to get over to attend the Courts, and also on account of the high charges on stage and railroad lines.

The Senator's bill to amend the mining laws has been reported from the Committee on Mines and Mining.

The bill to authorize the sale of mines in the Territories to aliens has created considerable discussion in the Senate already. Those who oppose it do so on the general principal of the alien land law passed last March. It will be a hard job to pass it.

An Evil.

There is one very bad practice indulged in by a few men in this vicinity, and is exceedingly detrimental to the welfare and prosperity of the country at large. It is this habit of one man going and locating a large number of claims every year, and with the intention of never striking a pick in the ground on any of them; but in the hopes that some person will go on or near their claims and uncover a promising showing, when the owner will then step forward and claim the property, and will either drive the party off the claim or else consent to giving a small interest to such person, provided they will do a large amount of work on the ground. There has been many instances of this kind hereabouts.—Pioche Record.

Pioche is not the only town in the State where these things happen.

—The colored sexton of a Kentucky church is in trouble. He had fitted up a poker room in the church tower, and while the services were going on down stairs, together with some other ungodly friends he would indulge in a quiet game. All went well for some time, but lately, during a lull in the services, some mysterious noises were heard by the congregation down stairs. An investigation followed, and the sexton was promptly discharged and the club disbanded.

ROYAL BAKING POWDER
Absolutely Pure.

The powder never varies. A marvel of purity, strength and wholesomeness. More economical than the ordinary kinds, and cannot be sold in competition with the multitude of low test, short weight alum or phosphate powders. Sold only in cans. **ROYAL BAKING POWDER CO., 106 WALL ST. N. Y.**
